

CONNECTIONS

E - Newsletter | Edition - 49 | Month - June 2024

Foreword

With summer holidays coming to a close, the June month began with a burst of activity. The inter-house basketball tournament took place, along with the preliminary rounds for cricket and football. We held Student Council Elections, celebrated World Nature Photography Day with a contest, and hosted an NCC camp. All these exciting opportunities went by in a blur. Whether we've grabbed them or not, June 2024 sure was an exciting month for all of us.

Highlights of the issue

- Investiture ceremony
- International Yoga day
- Specialist talk
- NCC camp

INVESTITURE CEREMONY

"A leader is one who knows the way, goes the way, and shows the way." ~ John C. Maxwell

The investiture ceremony, a momentous occasion conducted every year to welcome the newly elected Student Council members, was held on the 19th of June this year.

The event was marked by the presence of our Honorable Chief Guest and Correspondent sir, Major General Jose Manavalan. He was treated with respect and zeal, inspiring us all to succeed and be respected in society.

The program began with the school prayer, followed by a warm welcome from our Principal, who emphasized the importance of leadership roles the students were about to undertake. After which, Major Jose Manavalan sir, inspired us to be more with a short yet influential speech.

CELEBRATING INTERNATIONAL YOGA DAY: EMBRACING HARMONY AND WELL-BEING

Participating in my school's International Yoga Day celebration was an enriching experience. I had the honor of guiding the session by instructing the procedure for each asana, while dedicated volunteers demonstrated the poses. The day began with a palpable excitement in the air. Students and parents gathered on the school grounds, where colorful yoga mats were laid out in neat rows. The early morning sun bathed us in a gentle, golden light, creating a serene atmosphere perfect for yoga. As the instructor, I felt a mix of responsibility and excitement, knowing that my guidance would set the tone for the event.

NATURE PHOTOGRAPHY CONTEST

"Photography is the only language that can be understood anywhere in the world."

- Bruno Barbey

"Nature photography captures the intrinsic beauty and diversity of the natural world, preserving fleeting beauty and sparking appreciation for the environment." In our school, we have an opportunity to learn and nurture this talent. This month, the school's Performing Arts department as part of the Visual Communication activity conducted a Nature Photography Contest on the occasion of Nature Photography Day. This day, celebrated on the 15th of June every year worldwide, celebrates the art of capturing nature in its purest form. Students of Grades 4 - 8 participated in the Nature Photography Day contest held this year.

Specialist talk

In anticipation of the introduction of environmentally friendly trash treatment techniques, students from grades 7 through 11 gathered in the assembly area on the 13th of this month. On the account of Environment Day, Dr. Shreenivasan was invited to speak upon the Hydro-Thermal Liquefaction, which is a thermochemical depolymerization process in an enclosed reactor to convert wet biomass into biocrude oil and chemicals at moderate temperature.

FROM FORAGERS TO FARMERS:

The evolution of humans from Hunters and Gatherers is something that some of us find intriguing. That is exactly what Grade 6 thought so too! In order to better understand how we have started growing food instead of just gathering it, Grade 6 went to the nature lab during their SST period to look into the production of food through farming which was a revolutionary act of our ancestors. There, they learnt about different crops, how to harvest them, feed fish,

KG ConJunctures

Primary Panorama

Check out all the highlights of Book Week in KG to see all the excitement of our reopening! Our youngest learners bring in their favorite books from home to establish a warm and inviting classroom library, helping kids at an early age learn to love reading. They will also go on a treasure hunt to the library of the main BVS building, wander through worlds of stories and knowledge.

SCIENCE

Objective: How does the pH value of creams and ointments correspond to the pH value of our skin?
What is pH? The term pH stands for "potential of hydrogen". Using the pH value, we can find out if a substance is acidic, basic or neutral.
The pH scale ranges from 0-14.

0-6.5 is acidic
7 is neutral
7.5- 14 is basic

ART & CRAFT

Students in Grade 7 are doing clay sculpting.

Students of Grade 5, learning sketch using contour lines.

Achievements

Sadhana participated in state level swimming competitions held in Tirunelveli.

She bagged 4 gold medals and individual trophy.

Marching Towards Leadership:

My Journey at NCC Camp

From 5th June 2024, I had the privilege to attend an NCC camp held at Pachaiyappa College in Kanchipuram.

The camp aimed to instill discipline, physical fitness, and leadership qualities among the participants. Despite initial concerns, the experience turned out to be both enriching and enjoyable.
